ANIMAL INFORMATION

*Note: In order to increase the likelihood that your tested animal receives a complete set of AgSights ABCs (across breed comparison EPDs) please submit both the Mandatory and Optional information on at least **5 animals** from your herd. Complete herd records increase the accuracy of the AgSights ABCs you receive on your on-test animals (see point 2 On previous page). For more details on requirements for AgSights ABCs please contact us (519-767-2665, extension 306).*
